 - E. Chairman/Board Members
- IX. OLD BUSINESS
 - A. Possible recommendation of a nominee for the vacant board position
 - B. Discussion of a possible standard monthly plant operator's report
 - C. Initiation of 2021 budget preparation process-special meeting?
- X. NEW BUSINESS

Meadow Ridge Phase 4 plans indicate at least 8 and as many as 11 of the 25 proposed lots will require grinder pumps to deliver effluent to our system. We will need to consider this situation. Since our system is a gravity one, the homeowner will need to be responsible for the grinder pump and pressure line to our sewer main. A standard such pump is an E-one. We will need to act on this and require the developer to present a formal request for this request including all details of this accommodation. Discuss any other possible requirement in regard to this matter (coating of main lines and manholes to protect from corrosive gases from grinder pump installations?)
- XI. ADJOURNMENT
